

AUTISMUS
jako dar

We are not just looking at an autistic child, but at the entire family, community and the whole system.

2024 ANNUAL REPORT

Autismus jako dar z.s.

(Autism as a Gift non-profit organization)

Why do we primarily support parents of children on the autism spectrum?

We believe that their approach has a decisive impact on the child's development and independence, on the quality of life of the whole family and on the interaction with the environment.

Our Goals

- 1 Raising awareness of autism
- 2 Support and education for parents of children on the autism spectrum
- 3 Spreading the concept of volunteering
- 4 Prevention of social isolation
- 5 Bringing families with autism and the public together

AUTISMUS
jako dar

The non-profit organization Autism as a Gift was officially founded in 2017, but we have started holding monthly meetings since 2013. The impetus was and still is our 16-year-old son Ángel.

"At first, I saw autism in an entirely negative light. After a while, my wife showed me the documentary Autism as a Gift... I want to thank you deeply, because it helped me understand what I need to do to make us all happy as a family. My perspective on autism completely changed, and I started to see it as a 'superpower'."

PEPA

"You do an amazing job for all parents of children with autism—a big thank you for simply being here."

JANA

"You are amazing for what you do! I'm grateful to have met you and a community of such positive people."

PETR

"Thank you! Seeing autism as a gift and sharing that perspective is, above all, a gift to society."

JANA

"Keep doing it. You're doing it right—you're making people happy by bringing separated families together. We've found a new group of friends."

Events with Children

OPEN TO THE PUBLIC

Autism Friendly

A half-day event for children with and without autism, with a parallel educational programme for adults. Assistants help take care of the children so parents can participate in workshops or take a moment to rest.

Topics: Care allowance: how to advocate for your children, Overload, exhaustion, burnout: what to do about it, How to work with care-demanding behaviour, Why it is important to work on ourselves if we want to help our child.

In 2024, the children enjoyed music, animal-assisted therapy, a sports programme, music and dance activities, art therapy, colouring, a LEGO corner, visits from the police and emergency services, a bouncy castle, and a magician. The events take place in as calm an atmosphere as possible (no crowds, loud music, and flashing spotlights).

Three events were held: **An awareness event for Autism Month** in April in the Sokol Gymnasium in Hostivice, a summer outdoor event **“Minions Among Us”** with a bouncy castle in Chýně, and an **autumn event** once again in the Sokol Gymnasium in Hostivice.

“So here we are again—and we’ll be back next time too :) Your events are just like you: kind, pleasant, fun, and educational. We feel so good being here. It was a wonderful day – so much love and joy in one place at one moment.”

MÍŠA

“I would like to thank you very much for a wonderful afternoon spent with all of you. I met more amazing people. I’m glad that my son took part in the programme and had fun with the children, whether it was kicking a ball or doing other activities.”

JANA

“...In the gym, there was a monkey track where my son could calmly try everything at his own pace. In ‘regular society’, there is never enough time—other kids are too fast, and it usually ends with us leaving. But at this event, there was no rush, no one scolded him. He got to try swinging on the rings, he even dared to swing like a bat. The coach who was helping there was wonderful—he explained everything patiently, even 100 times if needed. There was also the opportunity to jump over the vaulting buck. My son jumped over it with ease—I had no idea he could do that, and neither did he, because he had never had the chance to try it before. It was such a joyful moment.”

Autism Friendly – Sport

GOLF

Thanks to the initiative of the **Rotary Club Prague Golf – RCPG/NGW**, we successfully piloted a golf programme for children with autism in March and April. Then, throughout the golf season until October, children (accompanied by their parents) had the opportunity to visit the golf course in Prague Hodkovičky once a month and play under the guidance of an empathetic professional coach. **Golf supports children in many ways**—it helps develop their fine motor skills, concentration, and the ability to follow instructions, while also encouraging communication and socialization. Children get to try a new activity, and it may even spark a new hobby for them.

ROKYTKA CHALLENGE HURDLE RACE

Based on last year’s wonderful experience, we once again joined the Rokytká Challenge **charity** hurdle race with our autism families. The children had their own **special category** and a **separate start**, volunteers were present along the course to help, and family members were allowed to accompany them. Ideal conditions!

“We are truly grateful for the opportunities where children with autism can meet and make friends. I’ve always liked golf, but only now has it become something close to my heart. A huge thank-you to everyone for opening the door to sports and the time spent together.”

VERONIKA

“Golf is such a great idea! My son only knew it theoretically from pictures. Every event like this—especially one that’s a bit out of the ordinary—is a huge benefit for our children. We also deeply appreciate the opportunity for another crucial aspect for kids with ASD: gentle socialization. A beautiful afternoon in a beautiful setting and wonderful company. Thank you so much.”

JANA

“Thank you very much for organizing such an unconventional afternoon for our children. For the courage, loving approach of the coach, and for the very friendly environment of the Hodkovičky golf course. It helps not only the wider community to better understand differences, but also supports our children in learning to accept the rules.”

MARTINA

“Thank you very much for the hurdle race at Rokytká, where, to my pleasant surprise, my son joined the others. And thank you for the chocolate heart he received as a medal at the end. I had long forgotten about it, but he saved it the whole time until his diet was over :-). Thank you for the excellent event. We look forward to the next one.”

Festival of Young Talents

It is an honour for us to have once again participated in the prestigious “Festival of Young Talents” held at Mladotův house in **Prague Castle**, where children with autism had the opportunity to **exhibit their creations** – mainly drawings and paintings, as well as ceramics and other handmade works.

Photoshoots for Families with Children on the Autism Spectrum

We were happy to take advantage of the offer for photoshoots for families with children. Not only were five photos provided free of charge, but most importantly, the photographer **Monyka Vašková** is very understanding of our children. She can shoot from distance and discreetly – without lights, flash, or any clicking sound, as the photos are taken outdoors.

“Thank you for the beautiful event and the opportunity to experience something new. Our children can also develop and experience what healthy children do. Thank you for being able to be a part of your company, and to be surrounded by amazing people.”

SIMONA

“We are deeply moved by your love. We are learning from you what is truly a gift – and that is life itself...”

SVĚTLANA

exhibition organizer

“A truly beautiful initiative! The atmosphere was wonderful... the uniqueness of each individual picture or piece of work is simply magical!”

PAVLÍNA

“The photoshoot with Monyka was great. It went quickly, she adapted wonderfully to my son’s needs, so we were done in 15 minutes. And the result? So many beautiful photos! Thank you so much, we have a wonderful memory.”

MONIKA

“Amazing photos full of depth and emotion. The photographer even managed to capture the little ‘devil’ peeking out from my son’s eyes. We are truly grateful for the chance to have such photos. Thank you very much.”

KAMILA

Events with Children FOR CLOSED GROUPS

Besides half-day events, we also organize **weekend** retreats for families.

A new addition in 2024 was a summer trip to Český Krumlov, combined with a visit to the **International Music Festival**. We enjoyed a **music therapy workshop** (only for our group) and had the chance to attend a concert. Additionally, our **documentary Seeds of Goodness was screened** there. The experience was enriched by lots of shared moments, including camping together.

A classic event is the **weekend at the Benedictine Monastery in Prague**, where we celebrate **Advent** together, parents attend a workshop while each child spends time with their **assistant**. We also enjoyed music and dance programme, a home cinema, and the cherry on top was a performance by **medical clowns**.

"It was an amazing experience – camping, a drumming workshop, and a classical music festival. Thank you for letting us be with all of you and enjoy it all. I am glad to be part of your group. Thanks to our children, we get to see a different world – harder, but beautiful. Each child is completely unique, yet amazing; they are truly loves with big hearts."

SIMONA

"Thank you so much for an amazing Advent weekend full of beautiful surprises – dancing and waltz (wow), workshop with Hanka and Ernesto (truly incredible), a trip to the markets, and a lovely Christmas evening, as well as the traditional candle lighting with wishes in the chapel. The clowns' performance was top-notch! I still have tears of joy in my eyes. Thank you on behalf of myself and my son for letting us spend such a wonderful weekend with the most amazing people in the world."

PETRA

"Thank you so much for an amazing weekend full of humour, laughter, and wonderful people. We're recharged with new energy. The medical clowns' performance was fantastic and heartfelt, their connection with the children was incredible. We're truly grateful to be part of this amazing community. We love you all very much."

Events with Children

FOR CLOSED GROUPS

Since 2019, we have been **guides for weekends** organized by **Kolping Family Smečno** in the beautiful House of Families. It's an ideal, safe environment where we always have a workshop for parents while each child is cared for by their own assistant. We also enjoy other shared activities, and in the summer, the stay even lasts a **full week**.

Thanks to the support of the organization **Life for Children**, we were able to spend our second **remedial stay** in Velika, Greece, with several families. These experiences are truly lifelong memories for the children!

"My son and I feel cared for, accepted, and understood here. My son was content and happy, and so was I. We are leaving fulfilled and rested, enriched with lots of tips and advice."

KATKA

"The children look forward to seeing each other and thanks to our repeated stays, they feel safe here. All the activities and all the instructors were great. I am grateful that we can meet with other families."

JITKA

"I really liked that it felt like a camp for both parents and children and that there was a varied programme. Thank you for a week that enriched us greatly, I am full of wonderful experiences. My son has new experiences with children he can now call 'friends' and that means the world to us and to him. We've found a new group of friends. We want to go with you again!"

BÁRA

"I really enjoyed my time in Velika. I wish we could see each other more often."

Boy with autism

"Thank you very much for the opportunity to be on a remedial stay with our great group again. Our friendship—not only among parents, but also among the children—has deepened even more. The children learn not only about friendship from each other, parents share all their struggles, but also the progress, and all of this is a great gift."

Events with Children

FOR CLOSED GROUPS

Excursions

We have recently added excursions to our activities because we would like to involve children in everyday life as much as possible, and joining regular excursions would be very challenging. It is not always easy to find places where they welcome groups with children on the autism spectrum. That's why we are especially grateful to **Prague Airport** for accommodating us. Special thanks go to our wonderful guide, who was smiling and helpful the whole time, despite situations when one child was crying and refused to put on the mandatory wristband on her hand or elsewhere. Some children found the airport security check and handing over their belongings onto the conveyor belt very challenging, someone tried to run out of the outdoor airport enclosure... We solved everything and everything turned out well. We sincerely thank you for your patience and unique experience!

"We sincerely thank you from the bottom of our hearts for such a nice and beautiful airport tour. The tour guide did an incredible job. She amazed and thrilled not only the children but also us, the adults, with her joy, humanity, natural approach and passion for airplanes."

ANDĚLKA

"The excursion was amazing – my son and I had never been to an airport. I'm glad we had the opportunity to try it, it was good training for my son. He did great, and we really enjoyed it, thank you."

LENKA

"The excursion was great – it gave us a chance to get to places you normally can't go. It was great that the children could experience what it's like at the airport in a more relaxed setting than during regular 'traveling'. It was a perfect training opportunity for real trips."

JITKA

"The airport excursion was an experience not only for our children but also for us parents. Normally, you don't have the opportunity to see everyday airport operations up close like this. What made it truly special was that we had the entire tour just for ourselves, without any other visitors. This way, the children were surrounded by familiar faces and felt more confident. We're really looking forward to more amazing events with you."

PETRA

Monthly Meetings

We offer monthly meetings mainly for parents, relatives, volunteers, but also for educators, social workers and anyone interested in the world of autism. The goal of these meetings is education and sharing. Physically, they take place in Hostivice, and thanks to the online format, people from all over the Czech Republic and Slovakia join in.

THE MOST POPULAR TOPICS OF 2024:

- **Why Is It Important to Pay Attention to Sensory Perception in Children with Autism** (Linda Cecavová)
- **Children Online – How to Raise a Digitally Healthy Generation** (Markéta Homolková)
- **Why and How to Find a Volunteer for a Child** (Barbora and Ernesto Chuecos)

OTHER TOPICS INCLUDED:

- **Why Is It Important to Work on Yourself When You Want to Help Your Child** (Ernesto Chuecos)
- **Benefits and Cards for Children with Autism** (Jana Kratěnová)
- **Care for Caregivers Using the Saturation Method** (Ripsi Zohrabyan Myšáková)
- **How the EOv Method Helps Unlock Inner Potential** (Jitka Šuchová, Tereza Solarová)

“Thank you for bringing experts like Linda Cecavová to us, the caregiving parents, and for giving us the opportunity to hear her and ask questions. I was able to take a lot from each question for our family. The meeting was very inspiring.”

LENKA

“If I hadn’t participated in these meetings, our son and we would be in a completely different place, because there aren’t many options here in our region. Thanks to this group, we’re not in treatment (which we were pressured to do) and instead we’re looking for other ways to support our son.”

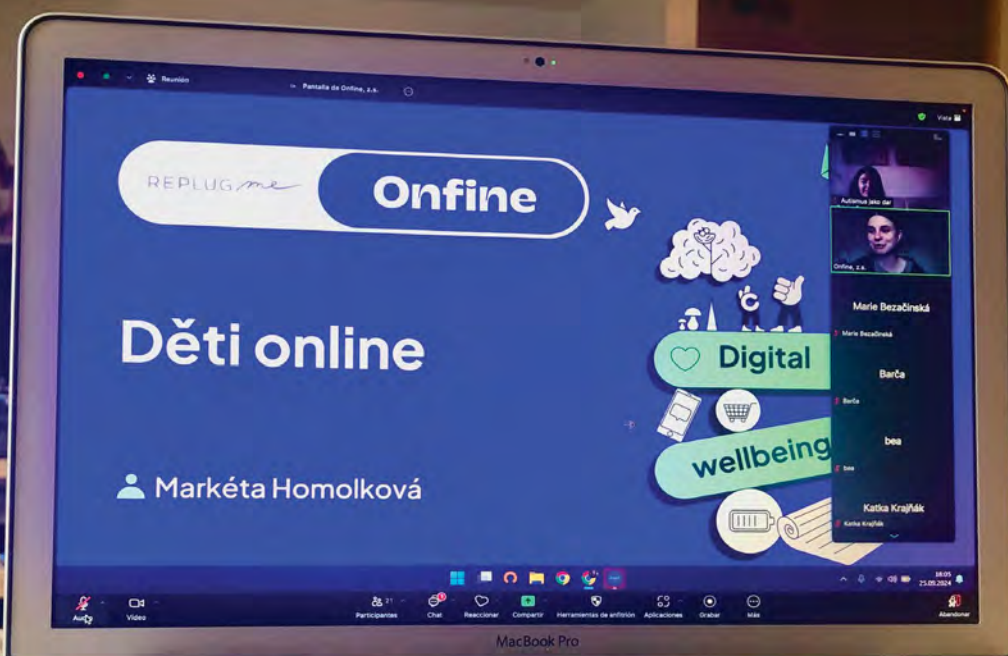

JITKA

“I feel very isolated, so these groups are an enormous strength for me—I’m not alone in this. It’s important for me to belong somewhere.”

JANA

“Thank you for arranging yesterday’s lecture, it was great! I keep sharing some wisdom from it here, like how boredom is important, not forcing children into too many activities, taking breaks from the online space...”

ONLINE GROUP

Ponorka/Submarine

Once a month, we meet in an online space to pause, immerse ourselves, and sense how we really feel. It's an opportunity to focus our attention inward. Everyone shares only what they feel safe to share. When we slow down, sharing takes on a different quality than just talking – we inspire each other and touch each other's hearts, sometimes silently. Only when we are in touch with our inner selves can we truly take care of ourselves.

"Being here with all of you today was a balm for the soul – healing both physically and mentally."

ANDĚLKA

"I am grateful for everyone's time and sharing, it means a great deal and has immense value for me."

PAVLA

"For me, Ponorka/Submarine is a moment of reflection, a moment just for myself, yet in the company of kind people."

JITKA

"Thank you for the invitation and for a very profound experience. Even though I was new to the group, I felt very welcome. You are doing a great thing."

LUCIA

"It was wonderfully relaxing and restorative."

LUCKA

"I had a tough day with my son today, but here I was able to rest. It's time I have just for myself, and I really like that."

Counselling & Consultations

By phone, email or in person during our events, we offer **quick guidance** on topics such as challenging child behaviour, seizures, aggression, or challenges associated with school, kindergarten, or training volunteers.

Our advice is based on personal experience.

Individual consultations offer a safe space for **deeper work and understanding** of automatic reactions that cannot be changed by willpower alone. First, we examine how we adapted to our childhood environment and what strategies helped us survive back then. This awareness allows us to trust the process of working with emotions and **take responsibility for the quality of our lives.**

"It was a wild ride into my subconscious, packed with an incredible surge of emotions erupting from me like a volcano. Emotions that had been buried very deep. Emotions that really needed to come out, needed my love and acceptance, so that I could finally feel an immense sense of relief. Without my guide Ernesto, I probably wouldn't have been able to find my way to them on my own. I discovered my unconditional love, which had been buried under layers of pain and emotional clutter..."

MÍŠA

"I signed up for the consultations after my previous personal acquaintance with Ernesto and good experiences with his other activities. Ernesto helps me discover aspects and milestones of my life story that I had never thought about or even known about. Understanding myself is proving to be a valuable key to coping more easily with life's challenges and a happier life."

LIBOR

"Over the course of my life, I've had personal experience with three therapists who gave me feedback on my life events, including my reactions to them. Currently, my light is Ernesto Chuecos, who is not afraid to go—so to speak—straight to the heart of the matter, working deeply with the body. I always take away an interesting insight from every meeting, something that challenges my perception of reality :-)) and forces me, in the best possible way, to keep working on myself and moving forward."

Volunteering

The documentary **“Seeds of Goodness”**, which premiered in November 2023 in Lucerna, Prague, received six additional awards in 2024. In total, it was **shortlisted for 21 film festivals** in the Czech Republic and abroad (Slovakia, Hungary, Spain, Italy, Moldova, India, USA, Congo, Poland, Peru, Bolivia, Brazil). It won two first prizes, one second prize, and received two honourable mentions. In 2024, the documentary continued to be **screened at numerous events** in various regions of the Czech Republic (see p. 15 Media).

A new milestone was the **premiere on Czech Television**, where the documentary was broadcast three times and was also included in **iVysílání**.

The mission of the documentary is to show that **volunteering is enriching for the child, parents, and volunteers, and has a positive impact on society as a whole**. Our wish is for volunteering to be common for people with autism and for there to be many volunteers in the near future.

May the good and volunteering continue to spread.

*“I’ve seen the film **Seeds of Goodness** about 20 times already, and I always watch it whenever I want to lift my spirits. Seeing all of you live, truly as you are portrayed in your documentary, was incredibly refreshing. But what I didn’t know was how much joy I will feel when I become a volunteer myself.”*

PETR

“So here I am crying. I know the story and the people involved, and yet it still moves me deeply. There’s so much hope in it, even for people in my own family, and I’m happy about that! Love works miracles!”

IVETA

*“When I first watched **SEEDS OF GOODNESS**, I immediately got goosebumps and tears in my eyes. It’s incredible how willing people are to help others selflessly. Thanks to the documentary, I placed an ad for our daughter myself, and it didn’t even take four days, and an amazing young lady immediately responded. The girls got along extremely well and are happy together.”*

Awareness in Schools

We have recently **started visiting schools**. We are very pleased with the growing interest in the **documentary Seeds of Goodness**, and sometimes **Autism as a Gift**, followed by a **discussion**. We have already been to several elementary, secondary and higher education schools. These events are mostly intended for **pupils/students**, but sometimes also for **teachers**.

Every small step raising **awareness about autism and volunteering** fills us and gives us great hope for the future.

LIST OF SCHOOLS VISITED IN 2024:

- Gymnázium Kladno
- Jihočeská univerzita in České Budějovice
- Základní škola Březová (near Uherský Brod)
- Základní škola Bohosudov in Krupka
- Střední odborná škola obchodní in Liberec
- Gymnázium a základní škola Bohosudov in Krupka (for educators)
- Základní škola Konice
- 2 elementary schools in Prostějov
- Základní škola Pošepného in Prague (for educators)
- Gymnázium Opatov in Prague

FROM EDUCATORS:

"The screening followed by a discussion showed us all that the difference between people is what makes us unique. With humility and a smile on our lips, we can say that today, Friday, April 19, 2024, not a single eye remained dry at the School at the End of the World. Ángel showed us that what is most important in the world and lies within each of us is understanding, willingness, and love."

"I'm absolutely thrilled about your visit to our school today. I hung on to every word you said, not only because I have a girl with autism in my class, who is also a non-native speaker, but mainly because it was all just incredibly interesting. Thank you very much for coming to our school!"

"The students learned a lot of new information and gained a different perspective on the issue of autism. Overall, the meeting was very inspiring!"

FROM STUDENTS:

"I found the entire programme interesting and enriching. It was the first time I heard about a positive approach to children with autism, and I thought it was great."

"I really enjoyed the experiential storytelling. It was a different way of educational process."

"I didn't know much about the world of a family with someone who has autism, and this really broadened my perspective. The talk was very positive, which also brightened my day. It's different to read an article than to listen directly to the parents who are telling their own story."
